

For Release: Tuesday, October 18, 2016

16-2020-SAN

WESTERN INFORMATION OFFICE: San Francisco, Calif.

Technical information: (415) 625-2270 BLSinfoSF@bls.gov www.bls.gov/regions/west

Media contact: (415) 625-2270

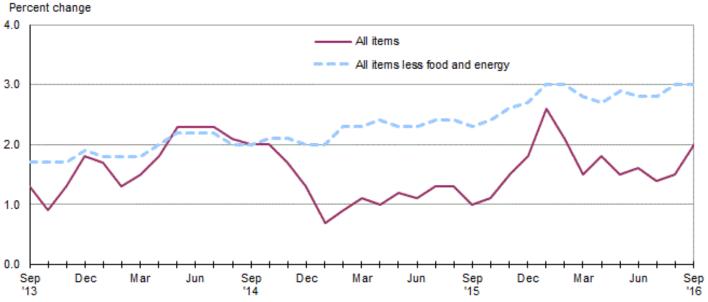

Incorrect prices for prescription drugs were used for the CPI-U and CPI-W indexes from May through August 2016 in a number of areas. Several indexes were affected, including the all items and medical care indexes. A list of the series affected can be found at www.bls.gov/bls/errata/cpi-price-corrections-10182016.htm, and the corrected data are available in the CPI database (www.bls.gov/cpi/data.htm).

# Consumer Price Index, West Region — September 2016 Area prices were up 0.3 percent over the past month, up 2.0 percent from a year ago

Prices in the West Region, as measured by the Consumer Price Index for All Urban Consumers (CPI-U), advanced 0.3 percent in September, the U.S. Bureau of Labor Statistics reported today. (See table A.) The September increase was influenced by higher prices for shelter and gasoline. (Data in this report are not seasonally adjusted. Accordingly, month-to-month changes may reflect seasonal influences.)

Over the last 12 months, the CPI-U rose 2.0 percent. (See chart 1 and table A.) Energy prices declined 4.8 percent, largely the result of a decrease in the price of gasoline. The index for all items less food and energy rose 3.0 percent over the year. (See table 1.) This is the 11<sup>th</sup> month that this index has increased by more than 2.5 percent. (See chart 1.)

Chart 1. Over-the-year percent change in CPI-U, West region, September 2013-September 2016

Source: U.S. Bureau of Labor Statistics.

#### **Food**

Food prices crept up 0.1 percent for the month of September. (See table 1.) Prices for food away from home inched up 0.1 percent. Prices for food at home were unchanged for the same period.

Over the year, food prices edged down 0.1 percent. Prices for food at home decreased 2.3 percent since a year ago, but prices for food away from home advanced 2.9 percent.

## **Energy**

The energy index advanced 1.3 percent over the month. The increase was mainly due to higher prices for gasoline (3.0 percent). Prices for natural gas service were virtually unchanged (-0.1 percent), and prices for electricity decreased 0.6 percent for the same period.

Energy prices declined 4.8 percent over the year, largely due to lower prices for gasoline (-11.7 percent). Prices paid for natural gas service advanced 3.6 percent, and prices for electricity advanced 2.9 percent during the past year.

## All items less food and energy

The index for all items less food and energy advanced 0.3 percent in September. Higher prices for apparel (2.2 percent) and shelter (0.5 percent) were partially offset by lower prices for education and communication (-0.4 percent).

Over the year, the index for all items less food and energy rose 3.0 percent. Components contributing to the increase included shelter (5.2 percent) and medical care (4.8 percent). Partly offsetting the increases were price declines in household furnishings and operations (-1.1 percent) and education and communication (-1.0 percent).

#### Footnotes

(1) Revised. See box note at top of release for more information.

The October 2016 Consumer Price Index for the West Region is scheduled to be released on November 17, 2016.

### **Technical Note**

The Consumer Price Index (CPI) is a measure of the average change in prices over time in a fixed market basket of goods and services. The Bureau of Labor Statistics publishes CPIs for two population groups: (1) a CPI for All Urban Consumers (CPI-U) which covers approximately 89 percent of the total population and (2) a CPI for Urban Wage Earners and Clerical Workers (CPI-W) which covers 28 percent of the total population. The CPI-U includes, in addition to wage earners and clerical workers, groups such as professional, managerial, and technical workers, the self-employed, short-term workers, the unemployed, and retirees and others not in the labor force.

The CPI is based on prices of food, clothing, shelter, and fuels, transportation fares, charges for doctors' and dentists' services, drugs, and the other goods and services that people buy for day-to-day living. Each month, prices are collected in 87 urban areas across the country from about 6,000 housing units and approximately 24,000 retail establishments--department stores, supermarkets, hospitals, filling stations, and other types of stores and service establishments. All taxes directly associated with the purchase and use of items are included in the index.

The index measures price changes from a designated reference date (1982-84) that equals 100.0. An increase of 16.5 percent, for example, is shown as 116.5. This change can also be expressed in dollars as follows: the price of a base period "market basket" of goods and services in the CPI has risen from \$10 in 1982-84 to \$11.65. For further details see the CPI home page on the Internet at www.bls.gov/cpi and the BLS Handbook of Methods, Chapter 17, The Consumer Price Index, available on the Internet at www.bls.gov/opub/hom/homch17\_a.htm.

In calculating the index, price changes for the various items in each location are averaged together with weights that represent their importance in the spending of the appropriate population group. Local data are then combined to obtain a U.S. city average. Because the sample size of a local area is smaller, the local area index is subject to substantially more sampling and other measurement error than the national index. In addition, local indexes are not adjusted for seasonal influences. As a result, local area indexes show greater volatility than the national index, although their long-term trends are quite similar. **NOTE: Area indexes do not measure differences in the level of prices between cities; they only measure the average change in prices for each area since the base period.** 

The West Region covered in this release is comprised of the following thirteen states: Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

#### Footnotes

Regions defined as the four Census regions. West includes Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

NOTE: Index applies to a month as a whole, not to any specific date. Data not seasonally adjusted.

<sup>(1)</sup> This index series was calculated using a Laspeyres estimator. All other item stratum index series were calculated using a geometric means estimator.

<sup>(2)</sup> Index is on a December 1982=100 base.

<sup>(3)</sup> Indexes on a December 1997=100 base.

<sup>(4)</sup> Special index based on a substantially smaller sample.

<sup>(5)</sup> Indexes on a December 1993=100 base.

<sup>(6)</sup> Data for May – August 2016 were revised.
